AN INDEPENDENT NEWSPAPER. (Established 1870.)

This paper will always fight for progress and reform, it will not knowingly tolerate injustice or corruption and will always fight demagogues of all parties, it will oppose privileged classes and public plunderers, it will never lack sympathy with the poor, it will always remain devoted to the public welfare and will never be satisfied with merely printing news, it will always be drast'cally independen, and will never be afraid to attack wrong, whether committed by the rich or the poor.

NOT ONLY A DOG CATCHER, BUT A CAT CATCHER.

A woman living on Madison avenue has applied to The Standard for a cat catcher. She has 150 chickens. little and big, and her neighbors have as many cats, one family possessing nine. The cats raid the chicken coops and carry away mother hens, and the woman wants to know if she would be free to declare the prowling feline family a nuisance and proceed with her husband's automatic gun to do some shooting, or, if forbidden that privilege, whether the city might be prevailed upon to name an assistant to the dog catcher, whose duty shall be to rid the community of worthless

This woman with a grievance says some dogs are serviceable, but the city inflicts a tax on all dogs. She doubts that there are any cats worth keeping, unless they be mousers in a grain store, and she would banish them all as were the pariah dogs of Constantinople, to an island, and she is now searching out one of the rocky pieces of land in the center of Great Salt Lake which would test the correctness of the statement that a cat has nine lives.

Anyone who has been awakened in the dead of night with endless caterwauling from a neighboring fence, will agree with the Madison avenue chicken raiser, that the city should show no partiality in favor of cats, but should proceed immediately to inflict a tax and name a cat catcher.

GOOD NEWS FOR THE RAILROADS

It is a source of some relief, from a business point of view, that the government and the officials of the Harriman roads have reached an agreement that will allow of the segregation of the Union Pacific and Southern Pacific roads without onerous exactions or the precipitating of a financial upset in the stock market. There was danger of a receivership, if the two sides to the unmerging could not agree, which would have been a calamity.

The government is to allow an exchange of stock with the Baltimore & Ohic and in that way the first step in unmerging will be taken without the slightest jar. Later a trust company is to dispose of the Union Pacific holding in Southern Pacific, with no fixed date for the final accounting, hands other than that of Union Pacific stockholders.

For the present, the Central Pacific commence a new action for the purpose of segregating the Central Pathe separation of those roads to some officer not wounded.
